Ordained also means investing in someone with such authority, past time of the verb theredain. It has many other general meanings, including order, command, decree, or destine. The process or ceremony in which a priest or minister is served is called coordination. Example: Only one priest can make the ceremony. The first registrations, referred to as adjectives, are from the 1300s. The verb Ordain is derived from the Latin verb ordināre, that is, edit, organize, assign. The original meaning of the verb Ordain is to appoint it to the holy office. In Christianity, this is sometimes done by coordination ceremony, which means holy ingraal of holy commandments. Those who go through this process are often referred to as ministers who state that they have officially completed their steps to gain pastoral or pastoral status. Priests are said to be members of clergy and are often given the title of priest. As an adjective, the priesthood is almost always used in religious contexts, especially in regards to Christian priests and ministers.
